

WANTED:

NEW: LBP
GUILDFORD

Talented u6-u12 footballers with birthdays between January & August only

Late Birthday Project (LBP) combats the Relative Age Effect* in youth football, by allowing talented younger players to flourish, without the influence of older, bigger boys.

LBP's unique formulae is proven to help players of all abilities make huge improvements in their technical ability, attitude and match-performance, and LBP graduates have gone on to join professional club academies such as Chelsea, Brighton & AFC Wimbledon.

- Pro-academy Environment, Coaching & Opportunities
- Invitation-only Boys squads - U6-U12
- Elite & Development Categories
- UEFA Qualified Coaches & 3G Pitches
- Psychology, Nutrition, Speed & Physio Sessions
- Online Assessment Centre
- FREE: Futsal programme - Adidas team kit
- Close links with pro clubs - Showcase fixtures
- Covering Sussex, Surrey & South London
- Membership Scheme from £28 per month

★ LBP is the Coaches' Choice – over 80% of LBP parents are FA qualified grassroots coaches ★

LBP is opening a new academy to cover the Guildford area and expanding our Dorking & Crawley centres.

*'Relative Age Effect' (RAE) - a bias in elite youth sport where participation is far higher among those born early in the academic year. In football, 45% of players at Premier League and Category 1 academies are born between September and November, but just 10% are born between June and August (EPPP, 2013).
